# 1 About TechArch

TechArch is a global tech training platform empowering youth with digital skills for worldwide opportunities, with a special focus on East Africa. Registered in Minnesota, USA, we are committed to innovation and accessibility.

## 2 Training Programs

### 2.1 Python Coding

Learn Python for web and AI development. 3 months, beginner-friendly. Includes hands-on projects and mentorship.

### 2.2 Data Annotation

Master data labeling for AI models, opening global remote jobs. Flexible schedule, no prior experience needed.

### 2.3 Agri-Tech Apps

Build tools to boost farming with tech, tailored for global needs with a focus on East Africa.

### 2.4 Digital Marketing

Grow businesses online with SEO and social media strategies. Perfect for entrepreneurs and freelancers.

## 3 Success Stories

- Amina from Mombasa: Landed a remote data annotation job with a US firm.
- Otieno from Kisii: Started an agri-tech app, employing 5 youth locally.
- Fatuma from Dar es Salaam: Freelancing on Upwork as a coder.

## 4 How to Join

Apply online at our Training page or email [info@techarch.org](mailto:info@techarch.org). Free for qualified applicants, with devices provided for low-access areas.
